SKILLS

- **Languages:** C++, JavaScript, C, PHP, Java, Python
- **Frameworks:** HTML, CSS, Tailwind CSS, React.js, Node.js, Express.js
- **Tools/Platforms:** MySQL, MongoDB, Visual Studio, Jupyter Notebook, Docker
- **Soft Skills:** Analytical Problem-Solving, Leadership & Team Collaboration, Effective Communication (Technical and Non-Technical), Adaptability & Continuous Learning, Time Management & Ownership

PROJECTS

Class Connect – Interactive Learning & Doubt-Support Platform: [GitHub](#) Mar'25 – Jun'25

- Developed an interactive learning platform enabling students to chat with teachers, upload doubts, and raise support tickets, improving communication efficiency and reducing **doubt-resolution delays by ~30%** during prototype testing.
- Built features including course purchase, playlist saving, comments, and feedback, which increased student engagement and **repeat usage by ~45% among 10+ trial** users across students.
- Designed separate teacher and student workflows for uploading content and managing lessons, improving content organization and accessibility, while maintaining a stable system with consistent performance during multi-user testing.

Tech: HTML5, Tailwind CSS, React.js, Node.js, Express.js, PHP, MySQL

Breast Cancer Prediction Model using ML: [GitHub](#) Mar'24 – May'24

- Developed a machine learning model to classify breast cancer cases using structured medical datasets, applying preprocessing, feature scaling, and algorithm comparison to determine optimal accuracy.
- Implemented multiple ML algorithms including Logistic Regression, KNN, and Naïve Bayes, achieving an average **model accuracy of ~85%** based on evaluation metrics such as confusion matrix, precision, and recall.
- Analyzed data patterns through graphical visualization and statistical evaluation, improving understanding of feature importance and supporting decision-making for refining model performance.

Tech: Python, Pandas, NumPy, Scikit-Learn, Matplotlib, Logistic Regression, KNN, Naïve Bayes

CERTIFICATES

- Cloud Computing (Fundamentals & Deployment Concepts) — NPTEL [Certificate](#) Aug'25 – Nov'25
- AI Foundations Associate, OCI Professional, DevOps Professional — Oracle [Certificates](#) Jun'25 – Jul'25
- Summer Training on Java for Application Development using Swing & GUI — LPU [Certificate](#) Jun'25 – Jul'25
- MongoDB Schema Design, CRUD & Query Optimization, Indexing, Sharding, Security & RAG — MongoDB [Certificates](#) Apr'25 – Jun'25
- MERN Stack Development — Udemy [Certificate](#) Dec'23 – Feb'24

ACHIEVEMENTS

- **Solved 400+ coding problems** across platforms including LeetCode, HackerRank and GeeksforGeeks, maintaining a **100+ day coding streak.** [Codolio](#) Nov' 2025
- **Ranked Top 30** in Neo-codeathon among **1000+ participants** [Certificate](#) Apr' 2025
- **Placed 3600th out of 45,000+** competitors in Weekly Contest #470. [LeetCode](#) Mar' 2025

Extracurricular Activities

- Utilized and mastered **10+ AI productivity and automation tools** for workflow efficiency, research, and development. Oct' 2025
- Competed in the **NeoCodeathon Hackathon**, focused on structured DSA problem-solving rounds. Apr' 2025
- Participated in the **Web Hackathon**, contributing to a scalable web platform prototype. Mar' 2024

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 8.37 Aug' 2023 - Present
- **Lakshmipat Singhania Public School** Jaykaypur, Odisha
Intermediate; Percentage: 93% Apr' 2020 – Mar' 2022
- **Sacred Heart School** Rayagada, Odisha
Matriculation; Percentage: 91% Apr' 2019 – Mar' 2020
